EPM-201 FOUNDATION COURSE

Energy Project Development from Concept to Final Investment Decision

Understand the decisions and evidence required to move an energy project towards investment approval. This course explains the development pathway from initial concept through feasibility, site and resource work, permits, technology selection, contracts, financing and final investment decision. It helps participants understand dependencies and why technically attractive projects may...

LEVEL	FORMAT	GUIDED LEARNING	STANDARD FEE
Foundation	Live online	5-5.5 guided hours	£545 + VAT where applicable

FOUNDING FEE	ASSESSMENT	CERTIFICATE	CORPORATE DELIVERY
£445 + VAT where applicable	80% pass + practical task	Uniquely numbered Foundation Certificate	From £4,000

Learning outcomes

- Map the main energy project development stages
- Identify key technical, commercial and regulatory dependencies
- Recognise bankability and readiness gaps
- Understand the purpose of decision gates
- Prepare an initial project-readiness assessment
- Communicate project risks to decision makers

Course modules

1. Project concept and strategic fit
2. Feasibility, site, permits and stakeholders
3. Contracts, offtake, financing and risk allocation
4. Decision gates and FID readiness
5. Practical workshop: project-readiness map

PRACTICAL OUTPUT

Project Development and FID Readiness Map

WHO SHOULD ATTEND

Project developers and managers; Energy analysts and consultants; Commercial and investment teams; Public-sector project personnel; Professionals entering renewable, storage, hydrogen or infrastructure development.

PREREQUISITES

No financial-modelling or engineering qualification is required. General energy-sector awareness is recommended.

ASSESSMENT

Knowledge assessment plus the practical output. Learners must achieve the 80% pass standard and meet attendance requirements. One free resit is included.

COURSE SCOPE

This is a foundation programme. It develops awareness, structured review skills and practical readiness. It does not certify technical competence, regulatory compliance, legal sufficiency or professional authorisation.
