

CAR-203

FOUNDATION COURSE

Product Carbon Intensity for Energy and Commodity Transactions

Use product-level carbon information more intelligently in procurement and sales discussions. This course explains product carbon intensity, system boundaries, allocation, comparability and claims in accessible commercial language. It helps learners question apparently precise figures, recognise incompatible comparisons and understand how carbon intensity may influence procurement,...

LEVEL Foundation	FORMAT Live online	GUIDED LEARNING 5-5.5 guided hours	STANDARD FEE £545 + VAT where applicable
FOUNDING FEE £445 + VAT where applicable	ASSESSMENT 80% pass + practical task	CERTIFICATE Uniquely numbered Foundation Certificate	CORPORATE DELIVERY From £4,000

Learning outcomes

- Distinguish product carbon intensity from corporate emissions
- Recognise boundary, allocation and data-quality issues
- Compare carbon-intensity claims cautiously
- Identify evidence needed to support commercial claims
- Integrate carbon information into procurement and sales questions
- Recognise greenwashing and misleading comparisons

Course modules

- 1 Product carbon-intensity concepts
- 2 Boundaries, allocation and data sources
- 3 Comparability, assurance and claims
- 4 Commercial use in procurement and sales
- 5 Practical workshop: review competing carbon claims

PRACTICAL OUTPUT

Product Carbon-Intensity Comparison Checklist

WHO SHOULD ATTEND

Commodity procurement and sales teams; Energy traders and analysts; Sustainability professionals; Commercial managers; Fuel, hydrogen, LNG, metals and industrial-product companies.

PREREQUISITES

No advanced carbon-accounting knowledge is required. Basic familiarity with energy or commodity transactions is useful.

ASSESSMENT

Knowledge assessment plus the practical output. Learners must achieve the 80% pass standard and meet attendance requirements. One free resit is included.

COURSE SCOPE

This is a foundation programme. It develops awareness, structured review skills and practical readiness. It does not certify technical competence, regulatory compliance, legal sufficiency or professional authorisation.
